

Outside matches inside

■ **Gemma Nisbet**

Connected to the indoor kitchen via a full-length servery window, this outdoor kitchen is very functional, according the judges. Part of a Tuart Hill home by Inspired Homes, the outdoor kitchen incorporates a barbecue and wok burner flanked by benchtops that match those inside the home.

Soft-close drawers and doors, a round sink and a two-door bar fridge complete the space, which the judges described as a "great entertaining area".

"It has been finished to good level and displays quality workmanship," they added.
